1. Platinum Jubilee Pollinator Bed
2. Red kite
3. 'Save the Seas' & 'Pollinator' beds
4. Kaleidoscope of Butterflies
5. Met 1 Steam Locomotive & guard
6. Mural (Royal Mail Office)
7. Tiny Urban Forest (fox and owl)
8. Boot & Slipper Public House
9. Amersham Fire Station
10. Chilterns Lifestyle Centre
11. St. Michael & All Angels Church
-  Communications box art or mural
-  Defibrillator

### MET 1 STEAM TRAIN DISPLAY

The Metropolitan Railway was the world's first underground railway station when it opened in 1863, reaching Amersham in 1892. The arrival of the railway catalysed monumental growth for Amersham. To recognise and honour the legacy of the railway on the development of Amersham-on-the-Hill, the Town Council—in partnership with the Leaders of the 1st Chesham Bois Scout Group—created a half-scale replica Metropolitan 1 locomotive, which was a mainstay of the service from London to Aylesbury for twenty years.

### THE PLATINUM JUBILEE POLLINATOR BED

The bed features 19 hand crafted metal bees swarming over a bed of herbaceous, nectar-rich perennial plants. This innovative display highlights the importance of pollinators and ways to help them. The bed also features a 'bug castle', a replica of the Round Tower—the central keep at Windsor Castle—and a stag beetle hotel.
